Aeronautics Study Tour

Congratulations to our S. 6 student, Cheung Tsun Hin, who was admitted as a team member of the “2008 Chinese Youth Aeronautics Development Study Tour” organized by the Hong Kong Association for the Advancement of Science and Technology. He will receive training prior to departure in Hong Kong, conduct investigative studies in Beijing and Xian and report his study after coming back.

With this valuable opportunity, we sincerely hope that Tsun Hin can progress by leaps and bounds in his future study.
